WHAT IS V2H START

Hyperconverged infrastructure, simple and secure

V2H START is a suite of unique technology solutions developed by V2S to help businesses of all sizes and industries improve their IT operations simply and securely, achieving greater performance, growth and scalability at a competitive cost.

Flexible and easy to implement, they are designed to store, automate and protect your business from cyber threats.

Focus on your business while we keep it secure, productive and optimized!

Your infrastructure adapts seamlessly to your existing environment, promotes collaboration and stays up to date with evolving technologies, so you can focus on what matters most: growing your business with confidence.

ALL IN ONE SOLUTION

Built to transform your IT operations

Cost efficiency
Optimize your resources and reduce unnecessary expenses.

All-in-one
Simple to install and ready to operate within days.

Advanced security
Protection against cyber threats, ransomware and data loss.

Process automation
Streamline operations and minimize errors.

High resilience
Swift recovery from unexpected events.

High availability
Keep your systems always up and running.

Modular scalability
Expand your infrastructure as your business grows.

Remote connectivity
Secure access for your teams from anywhere.

Rapid deployment
Ready to work without long waiting times.

WHY V2H START

19+ years transforming business IT

V2S is recognized worldwide for its expertise in virtualization services, high-quality solutions and a world-class technical team. We understand the technology challenges businesses face, which is why we developed V2H START: comprehensive solutions designed to guide your transformation journey with unparalleled support.

We don't just offer solutions: we accompany our clients at every stage of their growth, no matter the industry, enabling long-term success.

7 key benefits of V2H START

1. **Cost savings**
   Fast ROI with minimal investment. Fewer hardware needs and lower long-term operating costs, with solutions that grow alongside your business.

2. **Simplified IT infrastructure**
   Reduce complexity and streamline management so you can focus on growing your business.

3. **Total data protection**
   Local and cloud backups ensure data integrity and availability while protecting against cyber threats.

4. **Business continuity**
   Fast recovery from unforeseen events keeps operations running and prevents costly downtime.

5. **Proactive management**
   Real-time infrastructure monitoring prevents failures and optimizes resources.

6. **Agile environment**
   Rapid application deployment boosts team productivity and competitiveness.

7. **Constant updates**
   Stay technologically up to date effortlessly and keep your business at the forefront.

With V2H START, your business has everything it needs to grow securely, scalably and efficiently while we handle the heavy lifting.

Your success is our mission!
